

Tube deburring machines - model ZP - HM ZP 45

Item Number: 00205025

The HM model ZP 45 Tube deburrer can remove burrs from both the inside and outside of tubes in one operation, thereby reducing deburring work-time significantly.

The rotary wire brush is mounted directly onto a two-speed motor.

The ZP 45 ensures perfect deburring every time of both ferrous and non-ferrous metals. The machine is provided with supports for both round and square tubes, and an adjustable eye shield.

The machine comes complete with a 0.5mm wire wheel and base. The machine is manufactured in accordance with the EC-machine directive, and a separately powered dust extractor with a special mounting plate can be supplied as optional equipment.

Product Specifications

Flap wheels (ø mm)	250x45
Machine height (mm)	1160
Machine length (mm)	460
Machine width (mm)	420
Motor (kW)	2,2/3,0
Net weight (kg)	75
Number of spindle speeds	2
Rpm	1400/1700 - 2800/3300
Voltage	3x400/440V-50/60Hz
Working height (mm)	920
